Objectives

- To be part of a company that will allow me to grow professionally, and where I can put into practice my experience and way of working.

- To develop ambitious projects with which I can broaden my portfolio and my career path.

- To work with a respectful company, in a pleasant atmosphere where each person enjoys their job.

Why me?

- I truly enjoy design and all its aspects, I feel great interest in the way design can communicate.

- I take every new project as a personal challenge, where originality and effectiveness are my main tools.

PROFESSIONAL PROFILE

I understand what makes an experience good or bad. I think through user problems, find realistic, practical solutions, mock them up in detail, and work with designers and developers to ship them.

I have an appreciation of good design as well as a deep understanding of composition, balance, symmetry, and white space.

I like to solve problems in unusual and innovative ways.

I love to contribute to the definition of a product's design language and experience.

Motivation

"Design must seduce, shape, and more importantly evoke an emotional response"

"Simplicity is the ultimate form of sophistication"

"Designers are meant to be loved, not to be understood"

"The essential part of creativity is not being afraid to fail"
